
TECHNICAL DATA

USE AND APPLICATION

2626 is a concentrated neutralized sulfonate. It has been specifically designed to enhance foaming properties, rather than harming them as is found with most sulfonates.

2626 should be used in foam systems that have high condensate levels. It will not only improve foam quality, but it will also minimize emulsion tendency on the surface.

2626 can also be used to formulate other demulsifiers. Contact Lindon for assistance in formulation with 2626.

TYPICAL PROPERTIES

Flash Point	63°F
Pour Point.....	<-22°F
Specific Gravity	0.922-0.962
Insoluble in Water	
Soluble in Xylene	
Soluble in Heavy Aromatic Solvent	
Appearance	Dark Amber liquid
RSN	11.1

STORAGE AND HANDLING

For Industrial Use Only. Avoid prolonged or repeated contact with skin, eyes and clothing. Do **NOT** ingest. In case of contact with eyes flush with water for at least 15 minutes and get immediate medical attention. Refer to the MSDS for complete handling instructions. **Store away from open flame. Avoid strong oxidizers.**

DISCLAIMER OF LIABILITY

The information in this bulletin is believed to be accurate, however all recommendations are made without warranty, since the conditions of use are beyond LINDON'S control. The listed properties are illustrations only, and not product specifications. LINDON disclaims any liability in connection with the use of the information, and does not warrant against infringement by reason of the use of any of its' products in combination with any other material or in any process.
