USE AND APPLICATION

9350 is a concentrated foamer with additives to stabilize half-life and increase foam height. It should be diluted in water, with one drum of 9350 making four drums of finished product.

9350 is an excellent foamer for use in unloading gas wells. It can also be used as the active ingredient in solid foam sticks.

Contact Lindon for more information concerning the application of foamers. Ask us about foam sticks.
